A World of Colour

We offer a wide range of beautiful, high quality colours across all our products. Choose from our traditional and modern colour tones to create your perfect living space with a touch of your personal style.

Discover attractive foiled finishes, offering a wide range of coloured windows, doors, conservatories and lantern roofs – and choose matching coloured fascias and soffits. Explore woodgrain effects to give an authentic appearance, perfect for a timber alternative. Add foils to the internal face, external face, or both to put your own individual mark on your home's appearance. All of our windows and doors are available as either single or dual colour.

Aluminium products

Our aluminium products are available in any RAL colour. Opt for a popular 'Anthracite Grey' for a sleek, modern aluminium style or choose from traditional tones such as 'Pale Green' to add a period flair to your property.

Made in the UK

10 Year Guarantee

Energy Efficient

Glazing Options

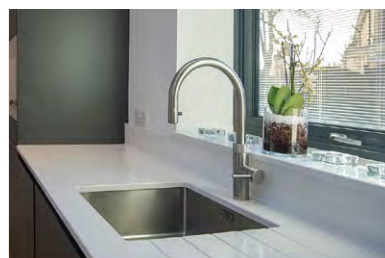

Solar Control Glass

Solar control glass reduces solar heat gain and offers high levels of natural light to provide comfortable living space all year round. Perfect choice for rooms where excessive solar heat gain may be an issue such as south-facing conservatories.

Obscure Glass

For privacy, pure style or to allow more light into internal rooms, obscure glass is an attractive option. It allows maximum light in while maintaining your chosen level of obscuration and also forms a beautiful decorative feature.

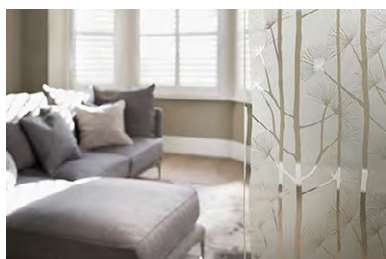

Integral Blinds

Integral blinds in glass are a neat and stylish alternative to curtains, external blinds and other window dressings for your home or business. They fit perfectly inside the double-glazed unit which means they won't get damaged and will never need cleaning.

Georgian & Astragal Bar

Georgian and astragal bar windows are some of the most iconic window styles, with a design that adds to the traditional appearance on older properties and helps create even greater kerb appeal.

Decorative Glass

With coloured, bevelled, and leaded styles, there are hundreds of different designs for you to choose from and tailor your choice to perfectly match the aesthetics of your property.

Personalised Design

Express your personal style with our custom leaded glass design service that allows for almost any image to be transferred onto glass. Our bespoke designs are ideal to add style and character to your home.

PVCu Casement Windows

This traditional British window style offers simplicity and slim sightlines to let maximum light into your home.

Casement windows are available in a wide choice of configurations, including top or side hung windows to help you personalise each window and create the perfect look for your home. Made from lead-free, energy efficient, recyclable PVCu, our casement windows are manufactured from the most advanced window profile on the market.

With many colours to choose from including white, cream, anthracite grey, oak and rosewood, and a 10-year guarantee as standard, it is easy to see why our casement windows are a popular choice for many homeowners.

Made in the UK

10 Year Guarantee

Energy Efficient

Key Features:

- Casement windows are fitted with multi-point locking as standard and are independently tested to offer outstanding security for your home.
- With unique multi-chambered 70mm PVCu profile, our windows are highly energy efficient, helping retain heat within your property.
- 28mm double glazing offers excellent energy efficiency and acoustic insulation.
- Available in a wide configuration of openings, colours and hardware.
- Our windows won't rot, rust or require painting - just an occasional clean with warm soapy water, even with our foiled colours.

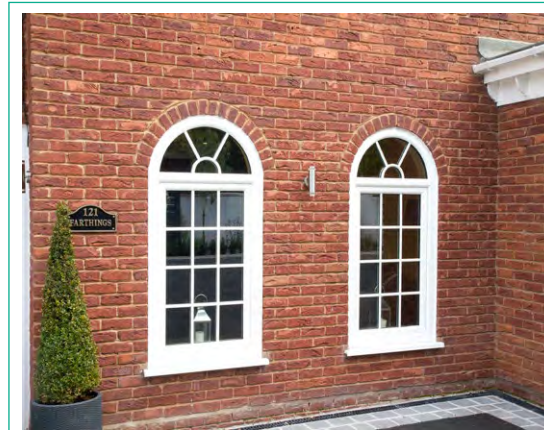

Tilt & Turn Windows

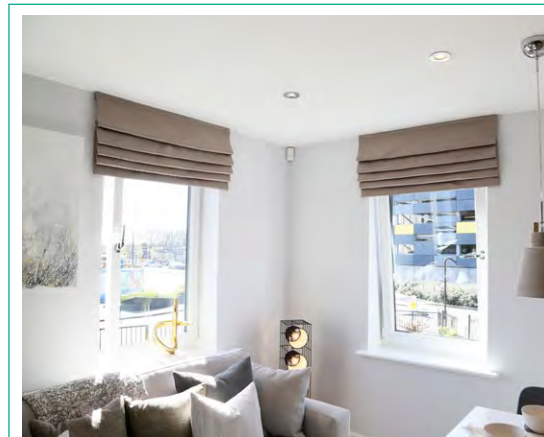

Tilt and turn windows are a great modern-day living choice.

This window style is designed to open inwards to aid in cleaning while the tilt option provides ventilation without compromising on security. These features make the tilt and turn style a great practical choice for any home. With internal beading and multi-point security locking, this window style provides many additional options for your home compared to the traditional casement window.

Key Features:

- Practical, multi-way opening system for easy access to the outside.
- Available in sculptured and chamfered profile.
- Opens inwards for easy cleaning.
- Thermal chamber reinforcing provides exceptional thermal and acoustic performance.
- Can provide a fire escape in the event of an emergency.

10 Year Guarantee

Energy Efficient

Vertical Sliding Sash Windows

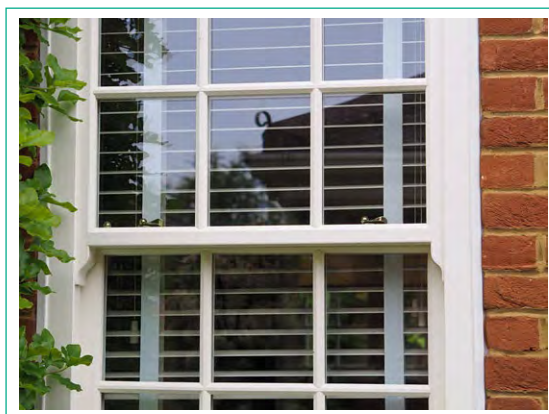

Vertical sliding sash windows add character and timeless elegance to your property that simply cannot be achieved with any other design.

This centuries-old design was originally used for manors and mansions, using timber as the main material. Today, our stylish and elegant PVCu sash windows offer an excellent alternative with the same charm and design but the convenience and security of a modern window. Available in a wide range of colours with optional features that include run-through sash horns, Georgian and astragal bars.

Customers love the slim sightlines and woodgrain finishes that make these sophisticated windows indistinguishable from a timber original.

Key Features:

- Security features include internal beading, multi-point security locking and key locking handles.
- Storm-proof rebated sash and double weather seals keep your home warm and dry in inclement weather.
- Sculpted frame inside and out.
- Full range of decorative glass to complement the style of your home.

Bay & Bow Windows

Bay and bow windows will transform the look of your home and add dimension to your living space.

This window style projects outwards from your room, expanding the beautiful view of the outdoors, while allowing more light to enter your home. Bay windows project from your home at angles. They create a beautiful centrepiece for a room and come in a variety of glass options, roof styles and colour options. Charming bow windows project in a curved shape that will give your home impressive panoramic views of the outside. Our innovative multi-chambered window profile system offers excellent thermal insulation, helping you improve the energy efficiency of your home and save money on your energy bills.

Made in the UK

10 Year Guarantee

Energy Efficient

Key Features:

- Designed to increase your living space while offering panoramic views of the outside.
- Add charm and character to a property with a range of additional design features such as Georgian bars.
- Ultra-slim sightlines to allow maximum light into your home.
- Available in an extensive range of colours to match other double glazing products on your home for a coordinated look.
- Key locking handles provide maximum security.

Aluminium Windows

Using innovative technology and sustainable materials, aluminium windows have a slimmer appearance and a larger glass surface area due to the strength of the frames. This means less frame area and more natural light for your home.

Aluminium also means flexibility when it comes to design. The material is exceptionally lightweight and with a range of customisable options including any RAL colour finish, our aluminium window range is a great choice for both traditional and contemporary designs. Add square or diamond leaded glass or astragal bars to create the perfect look for your home.

Built to the highest UK standards, aluminium frames are highly durable and simply stunning in design. Offering exceptional thermal qualities, aluminium windows are an excellent long-term investment for your home. They are rigorously tested for severe weather conditions and provide enhanced security features as standard, keeping your home safe.

We couldn't be happier with Jackson Windows. Kenny and Shaun worked tirelessly alongside us to obtain planning for new windows and doors for our listed building home. Fantastic communication, support and attention to detail. We absolutely cannot speak highly enough of the two fitters Steve and Scott. They were nearly living with us for two weeks! Their professionalism and pride in their work is a credit to the company. Many thanks to everyone involved.

Composite Doors

With a composite door from our range you will create a lasting first impression as you welcome guests into your home.

Composite doors are created by pressing and bonding a number of different materials together at a high pressure. This results in a strong, weather resistant and secure door for your home.

For added security, our composite doors come with glass-reinforced plastic skins and a multi-point locking system. They are also fitted with a full length 4mm thick, powder coated aluminium lock strip for additional strength and durability.

Great quality door fitted last week. Smooth process from quote to installation. No pushy salesman, job survey carried out, installer on time, polite and tidy job. Very pleased with the whole experience and my lovely new draught-free front door. Many thanks!

Sarah Barratt

PVCu Panel Doors

Practical, versatile and stylish, PVCu doors can instantly enhance the appearance of your property and create a welcoming entrance.

When you want to achieve a great first impression, a beautifully crafted PVCu front door is an excellent choice. This style is easy to maintain, will not rot or rust and is built to withstand the changeable British weather.

You can choose from numerous panel styles and different glazing options to design the perfect door to suit your lifestyle and the character of your home. Manufactured to achieve exceptionally high security, all our PVCu doors come as standard with five point locking, one-piece locking keep and the most up to date hinges on the market.

“

Needed a new garage back door. Great service all the way through the process from Jackson Windows. Barry, their fitter, turned up on time and installed the door efficiently, clearing up all the mess in removing old door, before leaving. I'd thoroughly recommend them!

French Doors

French doors are an elegant, timeless favourite of many customers.

Attractive looking, versatile and highly secure, they will allow for natural light to enter your living spaces and provide easy access to the outdoors.

Choose from our sculptured style for beautiful curves, or chamfered for a flat, more modern finish to your doors. French doors can open inwards or outwards to suit your home and help you maximise your living space. Add bevelled or patterned glass to create the perfect finish for your property.

Key Features:

- Innovative multi-chambered PVCu profile design offers superior levels of insulation.
- Designed to enhance an ideal summer setting but created to keep your house warm during the toughest winter conditions.
- Multi-point lock and shootbolts for maximum security.
- A choice of standard PVCu, Low PVCu, Low Aluminium or Part M thresholds.
- Available in a wide configuration of openings, colours and hardware.

PVCu Patio Doors

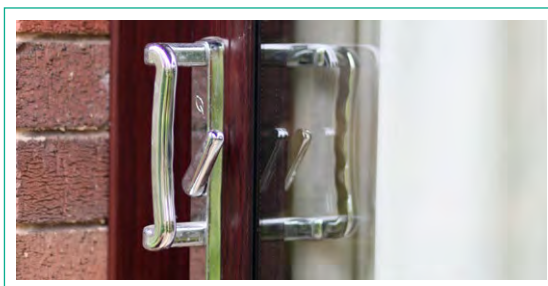

Sliding patio doors are ideal for providing access to garden areas or conservatories, offering a generous expanse of light through large glazed panels.

Manufactured using innovative multi-chambered PVCu profiles, our patio door is highly energy efficient. It will flood your home with light yet keep the weather out and the heat in during colder months.

A revolutionary multi-wheeled 'air glide' system supports the door as it slides effortlessly along its track. You will notice the easy opening mechanism, the smooth motion and the noiseless glide, making it feel as light as air to operate.

Key Features:

- With four hook bolts and two shootbolts at the top and bottom of each sliding pane, our patio system surpasses any other door of its type when it comes to security and peace of mind.
- Optional anti-snap lock cylinders and anti-lift technology for additional security.
- Our patio door can achieve a U-value of 1.3 W/m²K, meaning you'll be able to enjoy a warmer home as well as lower bills.
- Choose from a wide range of colour and handle options to personalise your door and match the aesthetics of your home.

Aluminium Bi-Fold Doors

The beautiful panoramic views you will achieve with bi-fold doors are unrivalled by any other type of door.

Bi-fold doors offer an impressive and effortless way to open a full wall of your house and create a relaxing atmosphere where you and your family can unwind or entertain guests. Slim frames mean more glass and more natural light for your home. The hardware is concealed for a stunning sleek finish.

Transform your property with a set of cutting-edge technology aluminium bi-folds and enjoy elegant aesthetics, reliable performance, high levels of energy efficiency and maximum security for your home.

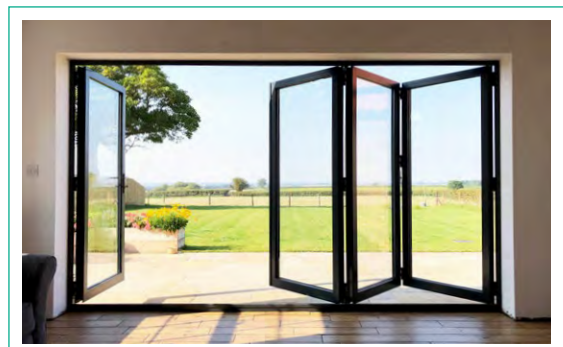

“

Jackson Windows have completely transformed our house and we are very happy that we chose them. The salesman was excellent and fully explained everything thoroughly and came out to see us a couple of times as we added to our original order with bi-fold and French doors for our extension. The quality is great, and the team of fitters all did an amazing job and were very tidy and they are friendly guys to have around as well!

Energy Efficient

Key Features:

- Individually made to your home in our Lincoln state-of-the-art factory.
- Super smooth bottom rolling action and modular locking technology.
- Patented exoskeleton, full doors cycle tested to more than 120,000 full opening cycles.
- Design features include discreet magnets and folding keys.
- Choose from any RAL colour to create the perfect look for your property.
- Choice of opening to the left or the right, and inward or outward for maximum versatility.

“

Well what can I say... Perfect does not go far enough to describe Jackson Windows! They went out of their way to find a solution to our needs... they went off-book and found, supplied and fitted a product that did not exist in their portfolio... at a very competitive price! Our request was unusual due to the location of an existing set of stairs, one of the doors needing to be “fixed” ie a dummy and a very restrictive fitting space... but their fitter took it all in his stride and did a fabulous job! It didn't end there... after sales kicked in when we requested a more secure lock... nothing was too much trouble. Jackson's went above and beyond... and I would highly recommend them to everyone! Just awesome.

Aluminium Sliding Doors

Let the light flood your living space with modern aluminium sliding doors.

Our slim-framed patio doors act as a wall of glass that will flood the house with natural light, whilst creating beautiful views out to your outdoors.

Combining high performance with stunning design, aluminium sliding doors have sturdy aluminium frames and a unique opening mechanism that allows the door to slide open effortlessly.

Manufactured to the highest UK standards, this multi-configuration inline system offers the highest levels of security and energy efficiency. Choose from a wide range of customisable options to create your own dream space where you can relax or entertain guests.

“

Jackson Windows just fitted a new patio door and window for us. We were extremely impressed with the service provided from start to finish and the quality of the door and window. Their designer was knowledgeable and helpful and the fitters were excellent. We have a number of doors and windows to replace in the coming years and will definitely use Jackson Windows again.

Deneice Harwin

10 Year Guarantee

Energy Efficient

Key Features:

- Choose from unique inline or lift and slide design.
- Larger glass area with minimal aluminium profiles in between panes, allowing you to make the most of your view.
- Smooth and silent 'air-glide' operation through highly durable stainless steel rollers.
- Complete range of handles, accessories and security features.
- Available in any RAL colour finish to complement the style of your home.

Conservatories & Orangeries

A stunning new conservatory will bring more light into your home. It will also give you extra space to relax, dine and entertain guests.

Our stylish range of conservatories includes both modern and traditional designs so you can select the perfect style to express your personality and to complement your property's character.

Whether you choose a traditional Victorian or a modern and elegant Lean-To conservatory, our experienced team will work with you at every step of the process to create your dream living space.

All our conservatories are individually designed and built in our Lincoln factory with the highest quality materials on the market.

“

Having installed a conservatory for me with excellent results, Jackson Windows was an obvious choice for replacement windows. The price was very competitive, and all their team were professional and friendly. Another satisfactory installation with one happy customer.

Julian

★★★★★

”

Made in the UK

10 Year Guarantee

Energy Efficient

Key Features:

- The latest high performance glass on all our conservatories allows you to enjoy your extra living space every day, all year round.
- Choose from a range of solar glass options, polycarbonate or tiled roof finish to create the perfect look and feel.
- Each one of our conservatories is individually designed and unique to your property.
- Choose from a wide range of traditional and modern styles including Victorian, Edwardian, Lean to, Gable-End, P-Shaped and T-Shaped.

Orangeries

There are very few products that can transform a property the way a new orangerie will. With an impressively high ceiling to maximise your space and thick pillars that provide both grandeur and privacy, an orangerie is a unique addition to any property. Relax and admire the stunning views of your garden or use your extra living space as a sophisticated dining room in which to entertain guests.

Our orangeries come in a range of traditional and contemporary designs. Rather than glass, an orangerie is mainly constructed from brick or masonry. Similar to a house extension, our orangeries are designed to subtly blend with the aesthetics of your existing property.

Conservatory Roofs

Our conservatory roofs are ideal whether you are choosing a roof for your new conservatory, or you are looking to upgrade your existing conservatory with a brand new roof to add comfort and thermal efficiency.

Our roofs are compatible with all types of conservatory designs and sizes, whether it's a small Lean-To or a large scale P-shaped design. Choose from the latest high-performance solar glass, polycarbonate or tiled materials for beautiful aesthetics, excellent temperature control and noise reduction. Leaving you with the perfect space to relax and enjoy the stunning views of your outdoors.

“

Brilliant service and very efficient from quoting to installation, I look forward to dealing with you again.

Timothy Waudby

★★★★★

”

Made in the UK

10 Year Guarantee

Energy Efficient

Key Features:

- More cost effective than a new conservatory.
- All conservatory roof materials are available in a range of options to suit your property.
- Hipped or mono pitch designs can easily be achieved to create the perfect look for your home.
- Superb thermal qualities help maintain a comfortable temperature all year round.

Roof Lanterns

Let the light in with a stunning roof lantern. Roof lanterns are the perfect way to add a feature to your roof, letting maximum levels of natural light in whilst providing a unique feature and views of the sky above, which is particularly impressive on a clear night.

Roofline Solutions

The roofline of your home plays an important role in protecting your roof and walls from the turbulent British weather and it should always be in good condition.

Prolonged periods of leaking can lead to serious problems such as penetrating damp and damage to your brickwork. Replacing your roofline will instantly make your home look better and will reduce the risk of costly leaks occurring in the future.

Our roofline products are very low maintenance and will protect your home from the elements for many years to come.

“

We have had the fascias and soffits done on our 1950s church building, parts of which were difficult to access. All aspects of the work have been carried out very professionally and efficiently.

Why Choose Us?

Best in the Business

A local and trusted fabricator, Jackson Windows is part of the respected Tradeglaze family of companies and has been helping homeowners in Lincolnshire, Nottinghamshire and South Yorkshire to transform their homes for over 25 years. We manufacture our products in our state-of-the-art factory in Lincoln and work with the best British suppliers to ensure we only use high quality materials from our approved supply chain.

Customer Satisfaction at the Heart of Everything We Do

Our teams take immense pride in exceeding our customers' expectations at everything we do. The journey of home improvements is a very exciting one. We are passionate about making every step of our customers' journey to their perfect home smooth and enjoyable. From the first enquiry through to the installation and aftercare service, our teams are here to take care of every detail for you.

Outstanding Energy Efficiency

Up to 20% of your home's heat can be lost through your double glazing. While there are many products on the market, the energy efficiency varies wildly. To ensure the maximum energy efficiency of our products, we use high performing modern technology profiles and glazing from leading UK manufacturers. Such as patented multi-chambered PVCu profile, which works to trap in pockets of warm air and maintain the warmth in your home.

Free No-obligation Estimate for Your Project

We offer free estimates on your home improvement project. Your personal design consultant will help you choose from hundreds of designs, ensuring you find the style, colour and finish to create your dream home. They will bring your vision to life and offer an approximate timescale and price estimate, all with no obligation to buy. We don't do hard sales because we want you to get the right product for your home and your family. It's no surprise that our customers come back to us, year after year!

“

We would like to thank Kim and Angie for their professional help and assistance with our door and window order. A special thanks to Barry the fitter for his brilliant work skills on completing our installation and his courteousness throughout. We are so pleased we have placed a further order for more work soon to be carried out. Thank you!
